Article Title: A New Approach to Decoherence Effects of Spontaneous Emission and Cavity Dissipation on Stimulated Raman Adiabatic Passage in an Optical Cavity: A Computational Study

Author/s: Alireza Heidari, Abolhasan Nabatchian, Mehrnoosh Zeinalkhani, Mohammadali Ghorbani

Journal Title: Applied Physics Research

ISSN 1916-9639 (Print) E-ISSN 1916-9647

Volume and Number: Vol. 4, No. 2, 2012

Pages: 29-39

DOI: 10.5539/apr.v4n2p29
